

INDIANA COMMISSION for HIGHER EDUCATION

Indiana Appathon: Credential Data Learn and Build

May 14-15, 2019

Day #1 - 9:00 - 4:00

Session Outcomes:

- Establish a shared vision of what innovations in Indiana are possible with current and potential Credential Registry data and other existing data sources (i.e. labor market information).
- Prototype and demonstrate applications that serve a variety of Indiana users including distance learners, students, youth, small businesses, and veterans.
- Identify current and future user needs and generate ideas for new applications that can meet those needs.
- Identify potential gaps in the Credential Registry for Indiana data needed to build apps that meet user needs.
- Establish a community of vendors, credentialing bodies, and other strategic partners in Indiana that will continue to collaborate to identify application solutions to meet user needs and accelerate the publishing of credential data to the Registry.
- Identify next steps for supporting and growing the community of practitioners building applications with Indiana data and publishing data to expand the Credential Registry.

Time	Topic
8:30 - 9:00	Registration and Breakfast
9:00 - 10:30	<p>Welcome and Opening Remarks</p> <p>Setting the Stage</p> <ul style="list-style-type: none"> ● Brief introductions ● Outcomes and Agenda ● Getting a sense of who is in the room <p>Ecosystem Round Robin Sessions <i>Rotate in 5-7-minute increments to different stations to get insight into different parts of the ecosystem:</i></p> <ul style="list-style-type: none"> ● Indiana Use Cases and Context ● Credential Registry 101 ● Open Applications Marketplace ● CTDL 101 ● What Indiana data is in the Registry? ● Consuming data from the Registry ● Publishing Partnerships
